SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Regional EOC	Coastal Regional EOC	Southern Regional EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated March 2, 2020, at 0700 hours, in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas. As of 06/19/20 at 1700 hours the MRCC has been deactivated.

Situation Overview

- **FEMA-4482-DR-CA**
On March 22, 2020, President Trump approved Major Declarations FEMA-4482-DR-CA (DR-4482) for the COVID-19 Pandemic.
- **Executive Order N-33-20**
On March 4, 2020, the California State Public Health Officer and Director of the California Department of Public Health (CDPH) ordered all individuals living in the State of California to stay home or at their place of residence, except as needed to maintain Continuity of Operations of the federal critical infrastructure sectors.
- **Global Health Advisory**
On March 19, 2020, the U.S. Department of State issued a Global Health Advisory at Level 4 (Do Not Travel) due to the global impact of COVID-19.

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 1000 Hours on [June 22, 2020](#):

- [9,110,119 \(+127,780\)](#) Total confirmed cases in 213 countries.
- [471,762 \(+3,700\)](#) Total deaths.

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 1000 Hours on [June 22, 2020](#):

- [2,275,645 \(+27,616\)](#) Total confirmed cases.
- [119,923 \(+308\)](#) Total deaths.
- Numbers reported on Saturdays and Sundays are preliminary and not yet confirmed by state and territorial health departments. These numbers will be modified when numbers are updated on Mondays.
- Please see the attached California Department of Public Health (CDPH) / Cal OES Joint Situation Report for additional details.

SITUATION SUMMARY

2020 Civil Unrest

On 05/30/20 at 2100 hours, the Cal OES State Operations Center (SOC) activated at a Level 3 (lowest) in support of statewide response to civil unrest.

Situation Overview

Planned protests and demonstrations continue in multiple cities across the United States with some turning violent in response to the death of George Floyd in Minneapolis, Minnesota on 05/25/20. A State of Emergency was declared by Governor Newsom for the City of Los Angeles due to the civil unrest.

Activations

- Cal OES State Operations Center (SOC) is activated at Level 3 (lowest)
- Cal OES Law Enforcement Operations Center (LEOC) is activated at Level 3 (lowest)

Deployments

- 1 Cal OES Law Enforcement Branch Deputy Chief is deployed to the Cal OES Law Enforcement Operations Center (LEOC)
- 1 Cal OES Law Enforcement Branch Assistant Chiefs are assigned to the Cal OES LEOC
- 1 Cal OES Fire Assistant Chief assigned to Los Angeles County

Proclamations

- On 05/30/20, Governor Newsom proclaimed a State of Emergency exists for Los Angeles County and the City of Los Angeles.
- On 05/31/20, the County of Los Angeles submitted a Proclamation of Local Emergency requesting a Governor's Proclamation, CDAA and Federal Disaster Assistance.
- On 05/31/20, the County of San Diego submitted a Proclamation of Local Emergency requesting a Governor's Proclamation, CDAA, and Federal Disaster Assistance.
- On 06/01/20, the County of San Bernardino submitted a Proclamation of Local Emergency requesting a Governor's Proclamation, CDAA, a Presidential Declaration and Federal Disaster Assistance.
- On 06/16/20, the County of Orange submitted a Proclamation of Local Emergency, requesting CDAA, State and Federal Disaster Assistance.

Missions

- **2020-LAW-32540:** 8 caches APX8000 radios deployed for CNG North Operations; 8 caches APX8000 radios deployed for CNG South Operations. 4 Caches returned in San Diego.
- **2020-LAW-32000:** Air transport requested for needed equipment from Region IA to Region II for civil unrest.

SITUATION SUMMARY

June 23 Heat Event

Phase II actions of the California Heat Contingency Plan are taken as a result of the National Weather Service's (NWS) issuance of Excessive Heat Warnings with poor overnight recovery for an Operational Area over a period typically three or more days. **Phase II of the Heat Contingency Plan will no longer be activated** due to multiple Excessive Heat Watches being downgraded to Advisories for portions of Inland and Coastal Regions. Give the downgrades by NWS, the established thresholds for Phase II activation are no longer met.

Per NWS:

- A significant warming trend statewide is expected starting Monday and lasting through at least Friday.
- Hottest temperatures and highest heat risk are expected on Tuesday.
- Temperatures forecasted to be 10 - 15 degrees higher than normal in portions of the state starting Monday, June 22.
- No rivers currently forecasted to hit flood stage.
- The Significant Fire Potential remains at "Low risk" statewide with the Central Valley and portions of the southeast reaching "Moderate Risk" throughout the week.

Actions Taken by Cal OES:

Cal OES Regions

- Cal OES Regional Duty Officers conducted outreach to local Operational Area emergency managers for situational awareness of their activities for this heat event.
- Cal OES Regions provided Situational Awareness Products to Operational Areas.

Situation Cell

- The Situation Cell is at Enhanced Watch providing incident reporting capabilities.
- The Situation Cell reached out to the National Weather Service (ROC) to clarify and define the weather forecast.
- The Situation Cell produced a Weather Outlook briefing for situational awareness on June 20, 2020.
- Cal OES Situation Cell conducted outreach to state agencies outlined in Phase II of the Heat Plan for a roll-up on their activities for this heat event.
- The Situation Cell issued an incident report for the June 23 Heat Event on 06/21/2020.

Office of Access and Functional Needs (OAFN)

- OAFN is coordinating with stakeholders throughout the community to identify any unmet needs. To date, none have been identified.

Earthquake and Tsunami Program

- Currently, the Earthquake and Tsunami Program and Earthquake Early Warning Program do not have any heat plan related activities to report throughout the forecasted time period. The Seismic Hazards Branch Duty Officer will continue to monitor activity with an enhanced emphasis on the locations with Excessive Heat Warnings and Watches. A potential concern to be aware of is that a loss of power for an extended duration (in some areas) or a loss of telecommunications in high earthquake risk areas could result in sporadic or delayed earthquake early warnings. While this is not anticipated during this heat event, it is something that the Program will be monitoring.

SITUATION SUMMARY

June 23 Heat Event (Continued)

Actions Taken by State Agencies:

California National Guard (CNG)

- CNG continues to monitor the heat wave and will provide updates as necessary.

California State Parks

- Park staff advised of incoming heat wave; visitor advisements will be made as appropriate.
- Units in desert areas are carrying extra water and ice packs should they encounter distressed park users.

Department of Aging (CDA)

- Starting today, 6/22, CDA will share out with both their networks of aging and disability service providers and the general public: heat safety tips; cooling center locations and contact info; and “CA Aging & Adults Info” telephone line to access local resources.

Department of Community Services and Development (CSD)

- CSD and its network agencies are monitoring the heat event and have activated the Department’s Statewide Severe Weather Energy Assistance and Transportation Services (SWEATS) program that allows its network to funnel needed funds to provide weather-related services to low income Californians (such as setting up or transporting people to cooling centers).

Department of Food and Agriculture (CDFA)

- CDFA will monitor livestock mortality and take appropriate action if those rates increase to a level that presents carcass disposal issues. CDFA will also remind managers and supervisors with field staff to follow its heat and illness prevention plans.

Department of Education (CDE)

- CDE will monitor and update as appropriate.

Department of Health Care Services (DHCS)

- DHCS is monitoring the event for any impact to Medi-Cal beneficiaries.
- Over 80% DHCS employees are currently teleworking due to the COVID-19.
- DHCS has sent out the attached Behavioral Health Information Notice #20-037 to all mental health and substance use disorder county directors.

Department of Public Health (CDPH)

- CDPH notified licensed stakeholders via CAHAN alert on 06/21/2020 of the upcoming heat wave. The notification requested that local health departments monitor the heat situation, take appropriate actions to protect vulnerable populations, and submit Situation Reports of any heat-related health impacts as directed in the Public Health and Medical Emergency Operations Manual.

Department of Rehabilitation (DOR)

- DOR will monitor the heat event and take steps to close any field office in case of a power shutoff, including air conditioning. Between 75 to 80 percent of DOR staff are presently teleworking. DOR will also send a Department-wide email on Monday apprising staff of the expected heat event.

Department of Social Services (CDSS)

- CDSS is monitoring the heat wave.

Department of State Hospitals (DSH)

- DSH facilities utilize Cal/OSHA High Heat thresholds in their specific site plans and notify employees via email of the required heat illness prevention measures.

SITUATION SUMMARY

June 23 Heat Event (Continued)

Actions Taken by State Agencies (Continued):

Employment Development Department (EDD)

- EDD is currently monitoring this weather event. Most EDD offices and staff will not be directly impacted due to the current telework situation occurring due to the pandemic.

Emergency Medical Services Authority (EMSA)

- Coordinating with Regional Disaster Medical Health Specialists for situational awareness, regional preparedness, and resource needs.
- Ready EMSA medical caches and rostering medical teams for potential fire response.
- Preparing to support sheltering needs and socializing response plans.
- Ensuring deployed EMSA COVID-19 medical response teams are informed of the increasing temperatures and are prepared to remain hydrated and are taking appropriate breaks out of the heat
 - Deployed teams and personnel will be implementing the following measures;
 - Ensuring ample water and ice are available and stocked in multiple coolers and easily accessible by all staff at each site.
 - Ensuring proper operation of climate control and HVAC systems in patient care areas, crew rest areas and operations areas.
 - Ensuring rest periods as needed, crew rotations and personnel monitoring.
 - Limiting outside operations to only vital tasks and short duration of work outdoors when possible.
 - Use of shade structures for outdoor work where possible.
- EMSA DOC and warehouse operations continue to be operational. Crews working within the warehouse sites will be following similar measures as outlined above.

Cal OES has created a page listing Summer Heat Resources including a map of cooling centers around the state, see link below.

- <http://www.caloes.ca.gov/ICESite/Pages/Summer-Heat-Resources.aspx>

SITUATION SUMMARY

Cal OES INLAND REGION

- See COVID-19 slides.

Cal OES COASTAL REGION

- See COVID-19 slides.

Cal OES SOUTHERN REGION

M4.6 Earthquake, Keeler, Inyo County

On 06/22/2020 at 1725 hours a verified M4.6 Earthquake occurred at a depth of 2.2 miles approximately 7 miles West Southwest of Keeler, Inyo County.

- Within 5 minutes, this event was followed by a M3.8 at a depth of 0.4 miles, shortly after that a series of events ranging from M2.4 to M2.9 occurred.
 - There have been approximately 15 events in this location with 5 small events occurring earlier in the day.
 - Per the Southern California Seismic Network Duty Officer, the series of events are occurring approximately 1 miles East Northeast of the Owens Valley Fault. Further background and assessment are in process.
 - Per UC Berkeley a MyShake was sent to 14 devices within the alerting area.
 - This event did not meet the WEA threshold.
 - Inyo County Warning Point advises of no injuries or damages reported.
 - The Earthquake and Tsunami Duty Officer will continue to monitor and will provide updated information when it becomes available.
- See COVID-19 slides.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 3	Preparedness Level 2	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

*Note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

Preposition of Cal OES and Local Government Resources for Red Flag Warning Event

Cal OES Fire and Rescue staff are coordinating with local Operational Areas (Counties) to preposition fire apparatus and personnel to augment local resources in preparation for the current Red Flag fire weather event. Staffing began the morning of 06/17/20.

- The following resources have been requested by the local Operational Area and approved via the California State Mutual Aid Pre-Incident Preparedness Guidelines.
 - Colusa County - 1 Local Government (LG) Type III Strike Team (5 engines), 1 Local Government Water Tender.

Cal OES Fire Missions

2019-FIRE-402

- Personnel assigned to fuel reduction efforts in Cal Fire Units: Shasta/Trinity, Nevada/Yuba/Placer, San Benito/Monterey, and Fresno/Kings.
 - Five (5) 20-person Hand Crews each and all necessary personnel, support, transportation and materials.
 - 65 additional soldiers to be trained and ready to backfill.
 - Assigned to fuel reduction efforts in SHU, NEU, BEU, and FKU (1 Crew in each unit with the exception of 2 crews in FKU).

COVID-19 Missions

- Please see the attached California Department of Public Health (CDPH) / Cal OES Joint Situation Report for additional details.

FIRE ACTIVITY

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

River, Vegetation Fire, San Luis Obispo county

Location: River Rd x Creston Rd, Paso Robles

Jurisdiction: Local DPA, LRA, Paso Robles Fire Department

Start time: 06/22/2020 at 1355 hours

Per Cal OES Duty Officers and CAL FIRE as of 06/22/2020 at 1916 hours:

- Currently at 10 acres, 10% contained
- Forward rate of spread has been stopped
- Structures threatened
- Structures destroyed
- Short range spotting with multiple spot fires
- Evacuation orders remain in place
- Continued commitment of CAL FIRE air and ground resources

FMAG

- An FMAG was received by the Warning Center and been placed on HOLD by Cal OES Fire Division

Evacuations

- Currently evacuations are taking place near River Road, Navajo, Creston, Shannon Hill, Elm, Walnut, and the Capital Hill area

Evacuation Centers

- Evacuees can go to the Paso Robles Veterans Hall at 240 Scott Road in Paso Robles

Shelters

- San Luis Obispo County Office of Emergency Services is currently working with American Red Cross on a sheltering plan

Service Interruptions

- None reported.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Today is the start of another high temperature week, widespread triple digit temperatures are in the forecast.
 - Northern half of the Valley can see highs in the 105-110 degree range.
 - Excessive Heat Advisory has been issued for the Valley, surrounding foothills and portions of the Delta from Monday through Friday.

SOUTHERN CALIFORNIA

- Today will see the start of another warming trend in Southern California.
 - Tuesday and Wednesday will see temperatures in the triple digits for the valleys, mountains, and deserts.
- Elevated Fire Weather for Antelope Valley and Foothills.
 - Gusty winds in the LA County Mountains and Antelope Valley, but no Advisory Level Winds at this time.
 - Highs of 98-104 degrees, with the hottest day on Tuesday.

Weather Advisories, Watches, and Warnings currently active in California:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca>

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

06/22/20 - 06/28/20

Monday - Sunday

- Threats for heat related health impacts increase throughout the central valley and Sierra and coastal range foothills today and continue through the week.
 - Slightly less heat impacts expected for the Delta, as the Delta breezes will bring more overnight relief than other areas of the central valley this week.
 - Heat Advisories are currently in effect across the valley from this afternoon through Saturday.
- Light showers and a few thunderstorms will also be possible Tuesday through Thursday in the Sierra Nevada.
- Elevated fire weather concerns in southern CA as breezy afternoon winds combine with the hot and dry conditions each afternoon across the LA County Mountains and Antelope Valley areas.
